A Starter Guide to Urban Homesteading and Green Residential Design

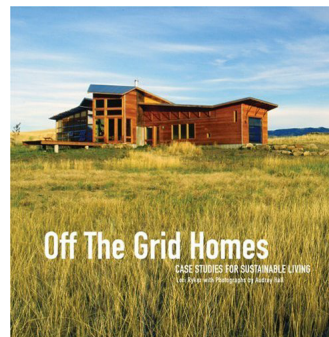

A companion to Suzanne Zuniga's "Metamorphosis" lecture

Mother Earth News

Monthly magazine covering solar power, graywater systems, food gardening, etc.

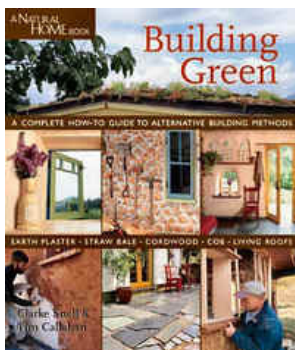

Available full-text to UO users in the Academic Search Premier database.

Off the Grid Homes

Case studies of off the grid homes using solar hot water, wind power, gray water and other green features.

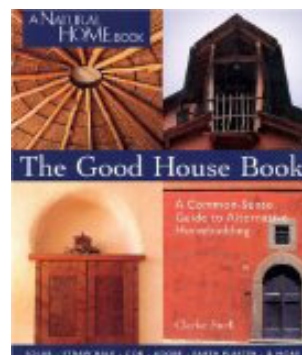

Available from the AAA Library in Eugene.

Building Green

Demonstrates five green building methods: earth plaster, straw bale, cordwood, cob, and living roofs.

Available from the AAA Library in Eugene.

The Good House Book

Traditional and alternative building materials and methods.

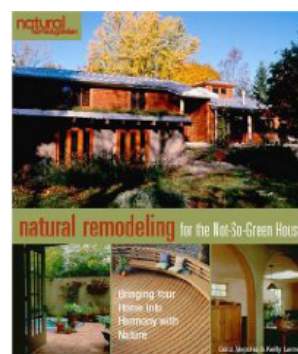

Available from the AAA Library in Eugene.

Eco-refurbishment

A practical guide to saving and creating energy in the home.

Available from the AAA Library in Eugene and the UO PDX Library in Portland.

Natural Remodeling for the Not-so-Green House

Green remodeling strategies from two architect authors, with lots of photographs.

Available from the AAA Library in Eugene.
